Travelling

Historical books reading

ABOUT ME

I am a Python backend development enthusiast with knowledge of frameworks like Django. I have built small-scale projects using REST APIs, worked with databases like SQLite and Mysql, and have a strong desire to learn and grow in real-world backend development. I am eager to join a team where I can apply my skills, learn from experienced developers, and build scalable applications.

EDUCATION

B.C.A (BACHELORS COMPUTER APPLICATION) (2022-2025)

Bhakta Kavi Narsinh Mehta Univesity

Python Backend Developer (2025)

Tops Technologies Private Limited

PROJECTS

TRAVEL SITE

preview

- FirstFlight Travel is a travel booking and itinerary management platform designed to provide users with a seamless travel planning experience. The application allows users to search for flights, view available travel packages, and manage their bookings through an intuitive and user-friendly interface.

- **Key Features:**

- Flight Services
- Travel Itineraries
- Contact & Support
- Travel Packages
- Admin Dashboard
